

**Comments:** The FRONT and the BACK stickers will be taken around the corners by approx. 50 mm in each side.

The SIDE stickers will be mounted approx. 25 mm from the FRONT and 25 mm from the BACK.

Be aware that by mounting of sticker on cabinet, the curved sides means, that we on the front cut off a bit in the top. From 10 to 25 mm of the sticker will be cut off in a curve. We could also make a small cut in the top of the front sticker along the frame of FOCUS, if it is too large.

Be aware that by mounting of stickers on the BACK of cabinet, we cut approx. 15 mm off the top of the sticker.
