- Available in all climate classes

Presentation and visibility are the key words when selling ice cream in the consumer market. Most customers make their final purchase decision on the point of sales. Therefore it is important, that the customers notice your ice cream freezer.

With the Elcold Scoop ice cream program, you are offered the possibility to create your own ice cream freezer solution to match your needs and optimize your promotion. You can combine the standard ice cream freezer with the Elcold canopies (Sneezeguards).

Two versions are available. One is illuminated and has curved sides, the other one has straight sides. Both versions come with an eye catching and appealing design
